

Compassionate and personalised in-home and community care

Supporting our South West community at home

Capecare has been caring for our older community members for 65 years. We are trusted by our clients to help maintain their independence at home, providing a variety of services to make this possible, tailored to their needs.

In-home support services, in-home respite care, a community social centre, allied health services and nursing care can be combined or stand alone and supported by government funding. We can also provide self-funded tailored care.

Our mission is to support seniors to age in place with dignity.

Our Services

In-Home Care

We help older community members live safely in their own homes by matching them with compassionate, trusted support workers who fit their needs and personalities. Think of it as thoughtful matchmaking for you or your loved one.

In-home services can be medical (nursing, medication, physio and other allied health services), social, personal (bathing, grooming, dressing), or practical (like cleaning, shopping, meal prep and nutrition, gardening and transport for appointments).

In-Home respite

Capecare offers in-home day respite options, ensuring carers have greater choice in how and where they receive support. The person receiving the care and support doesn't need to leave the familiarity and comfort of their own home while their carer takes a well-earned break or attend urgent appointments.

Social Centre

Our buzzing Busselton Social Centre is available for local seniors for day visits plus access to our allied health professionals. Clients enjoy social engagement with fellow community members, dedicated, trained care staff and volunteers; a variety of scheduled craft, games, gardening, musical, creative activities, outings; and lunch, morning and afternoon tea and refreshments.

Funding for Capecare's in-home services can come from Support at Home or Commonwealth Home Support Programme packages, and can also be privately funded and brokered.

How we can help

Capecare provides a range of personalised support at home in the South West. We can assist with:

Personal care – showering; dressing; personal hygiene; skin, nail and hair care; makeup; shaving; medication prompts; welfare checks

Gardening and home maintenance

Shopping and support with community connections

Domestic assistance – cleaning, laundry, meal preparation

Respite for Carers - at home or via our Social Centre

Group social support at our Busselton Social Centre. Full or half day depending on client needs. Transport available

Allied health services – physiotherapy and occupational therapy

Nursing services – wound care, chronic disease management

Group wellness – participate in group exercise and activities in Busselton

How to access home care

1. Contact the Government's My Aged Care service to request an assessment for home care services. You can do this by calling 1800 200 422, visiting www.myagedcare.gov.au and follow the prompts to assessment. Or contact Capecare's helpful community team on 9750 2097 or community@capecare.com.au to support you with this process.
2. Following your assessment, you will receive a letter detailing what services and funding has been approved for you.
3. Make contact with Capecare's community team to discuss your approved home care.
4. We'll make a plan with you to support your care needs.

When you contact Capecare's Community team, you'll always receive a response — because being reliable, approachable and easy to reach matters to us, and our clients always know they're heard.
